NEPA DETERMINATION**

RECIPIENT: The George Washington University

STATE: DC

PROJECT TITLE : GWU Wind Energy Consortia Between Institutions of Higher Learning and Industry

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA-0000090	DE-EE0003548		0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

A9 Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.

Rational for determination:

George Washington University proposes to use federal funds to develop a wind energy curriculum based on industry feedback and guidance as well as independent study of the potential demand for wind energy professionals. This curriculum will aid in student education, leading to an advanced degree opportunity of a Masters or Doctorate degree.

This project will involve the identification of training needs based on industry and student feedback, identification of programs best suited to potential student interest and local need, development of suitable course materials, creation of new courses/programs, and project management and reporting.

This project involves information gathering and development of an educational curriculum; therefore a CX A9 will apply.
